

- 1) If using Windows 10, you need to search for Internet Explorer (Microsoft Edge doesn't work)
 - a. Hit the Start Windows and start typing Internet Explorer (it will be the desktop app)
- 2) Once launched hit the little gear wheel in the top right corner
 - a.

- b. Hit Internet Options
- c. Choose the Security Tab
- d. Choose Trusted Sites and click Sites

- 3) Once in sites add <https://apscnvpn.k12.ar.us> (It will add an asterisk in the front)
- 4) Save and close all windows from Internet Options, and close Internet Explorer
- 5) Now relaunch Internet Explorer and browse to <https://apscnvpn.k12.ar.us>
 - a. Once you login it should now request to install a plugin.
